

Themes

For themes add the follow:

+theme_minimal() or

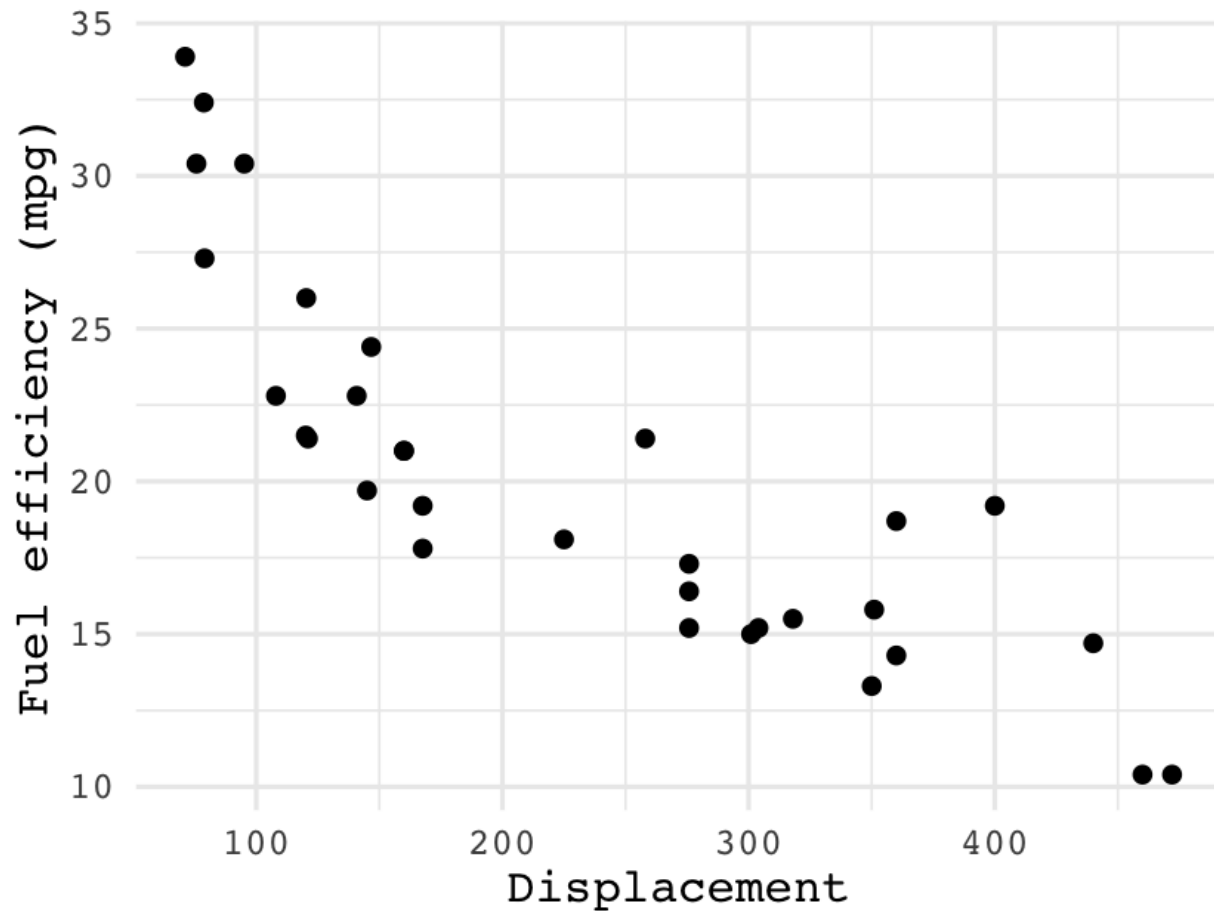

+theme_grey() or

+theme_dark() etc

Fonts

```
theme(text = element_text(family = "Courier"))
```

*changing the font in theme

Change Grid Lines

```
ggplot(data = mtcars,  
        mapping = aes(x = disp,  
                        y = mpg)) +  
  geom_point() +  
  theme(panel.grid.major =  
        element_line(colour = "red"))
```
